System Flow Chart

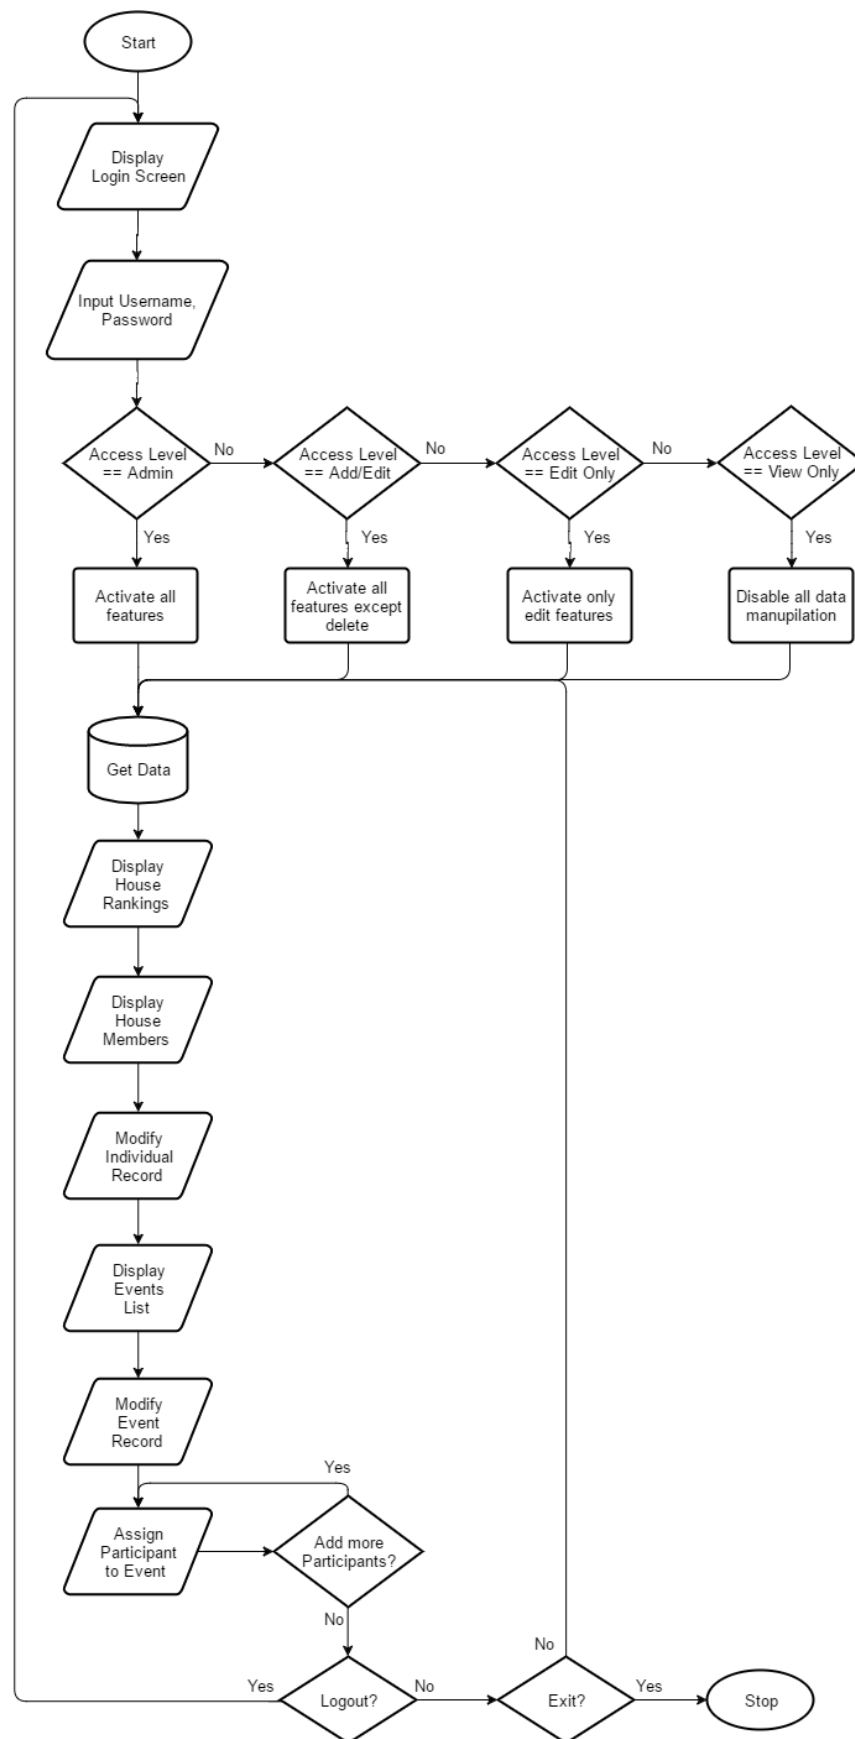

Figure 1: System Flow Chart for program

Data Flow Diagram

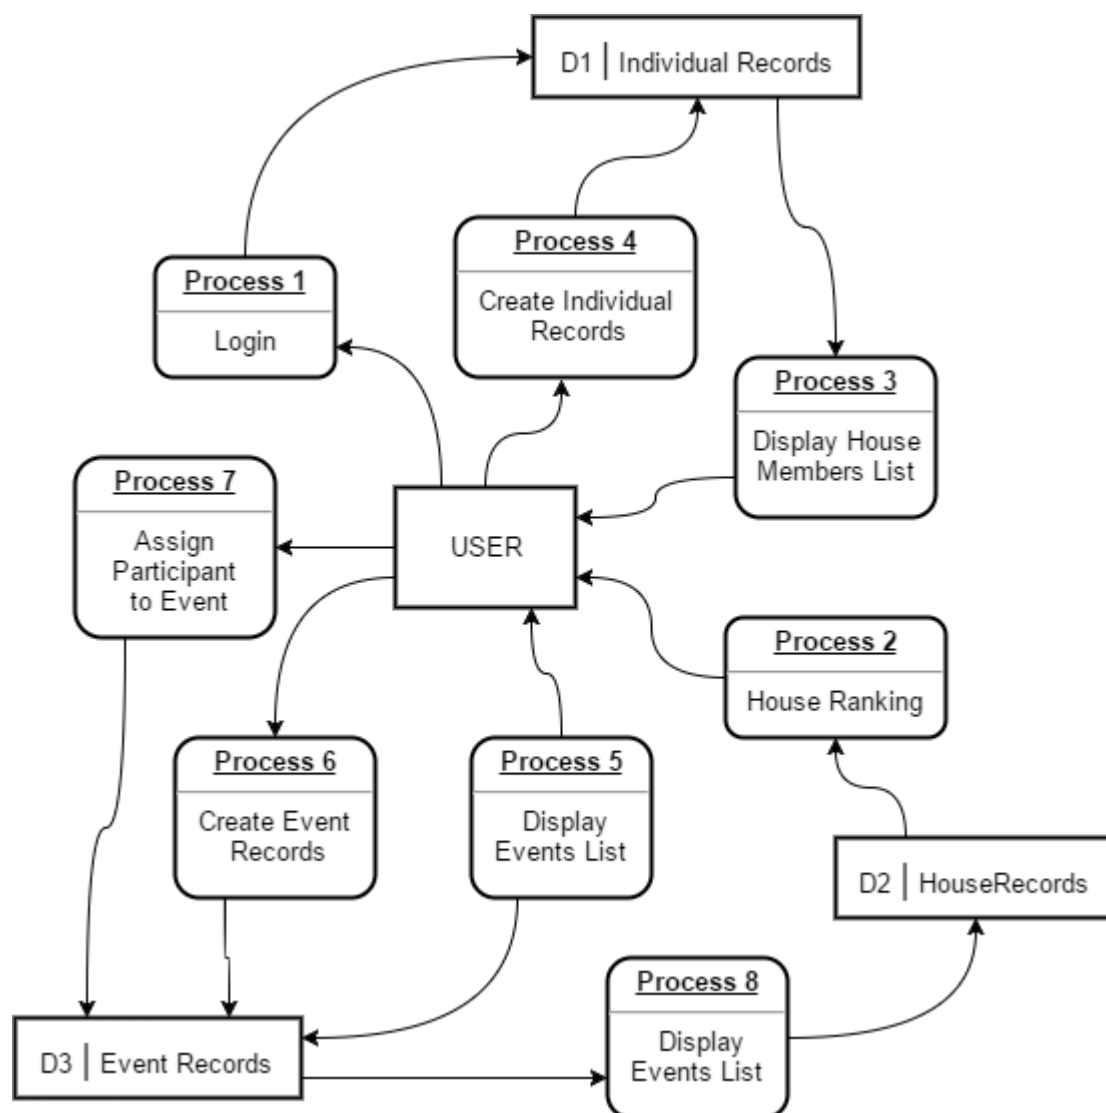

Figure 2: Data Flow Diagram for program

Planned Designs

The design of the application is done in a way to minimise the time taken to enter data. Data modification buttons are visible on their respective screens. The only buttons hidden in a menu are: logout, settings and exit; each of which should not be accidentally pressed.

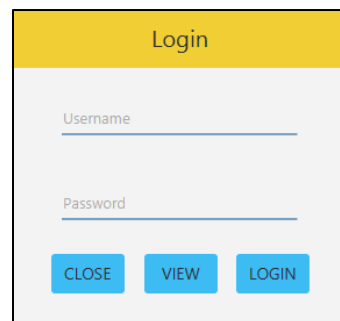

Figure 3: Login Screen

The login screen features a yellow header with the title 'Login'. Below the header, there are two input fields: 'Username' and 'Password'. At the bottom, there are three buttons: 'CLOSE', 'VIEW', and 'LOGIN'.

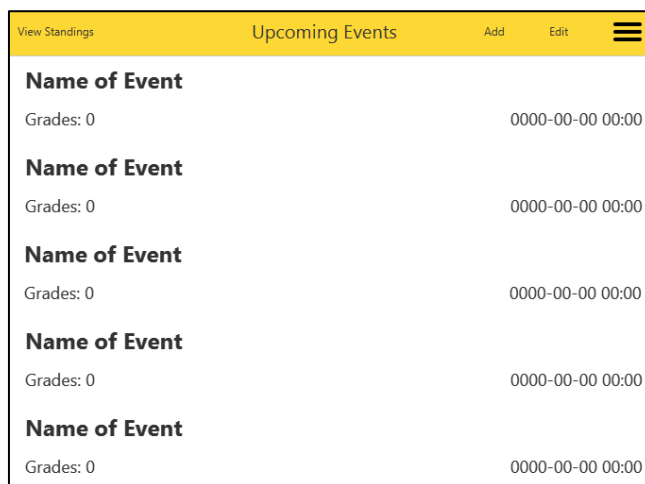

Figure 5: Upcoming Events List

The upcoming events list screen has a yellow header with 'Upcoming Events' and 'Add' and 'Edit' buttons. It displays a list of events, each with a 'Name of Event' and 'Grades: 0'.

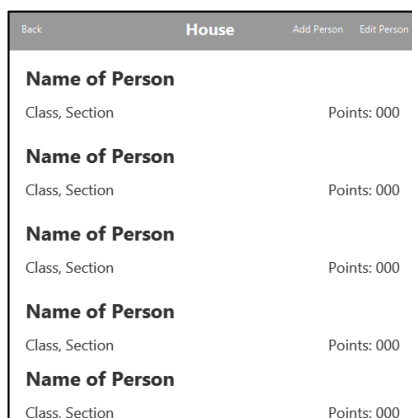

Figure 7: House Members

The house members screen has a yellow header with 'House' and 'Add Person' and 'Edit Person' buttons. It displays a list of members, each with a 'Name of Person', 'Class, Section', and 'Points: 000'.

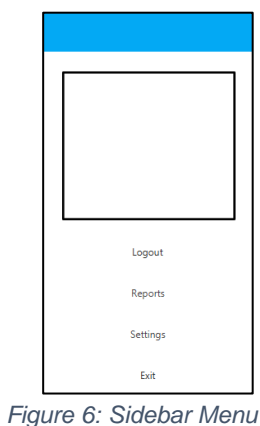

Figure 6: Sidebar Menu

The sidebar menu is a vertical list of options: Logout, Reports, Settings, and Exit.

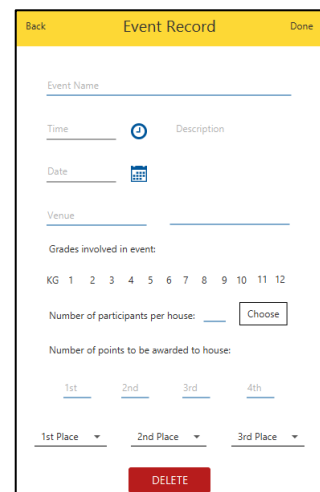

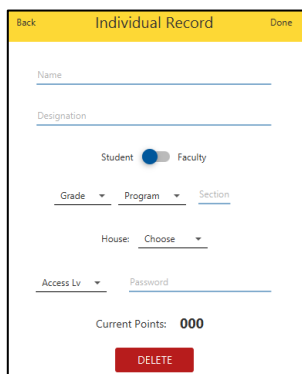

Figure 9: Event Record Editing

The event record editing screen has a yellow header with 'Event Record' and 'Done' buttons. It contains fields for 'Event Name', 'Time', 'Date', 'Venue', and 'Grades involved in event:'. It also has a 'Number of participants per house' field with a 'Choose' button and a 'Number of points to be awarded to house' field with a 'Choose' button. There are also fields for '1st Place', '2nd Place', and '3rd Place'.

Figure 8: Individual Record Editing

The individual record editing screen has a yellow header with 'Individual Record' and 'Done' buttons. It contains fields for 'Name', 'Designation', 'Student' (with a toggle switch), 'Grade', 'Program', 'Section', 'House', 'Access Lv', and 'Password'. It also shows 'Current Points: 000' and a 'DELETE' button.

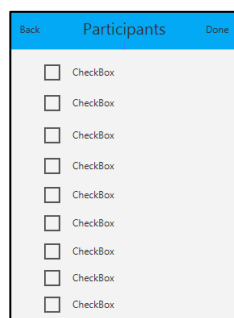

Figure 10: Participants Selection

The participants selection screen has a yellow header with 'Participants' and 'Done' buttons. It displays a list of checkboxes for selecting participants.

Database Tables (backend storage)

Events		
Field Name	Data Type	Role
id	SMALLINT	Primary Key
name	VARCHAR(45)	Event Name
datetime	DATETIME	Event date and time
venue	VARCHAR(45)	Event Venue
grades	BIGINT	Grades involved in event
points1	TINYINT	1 st position points
points2	TINYINT	2 nd position points
points3	TINYINT	3 rd position points
points4	TINYINT	4 th position points
win1	SMALLINT	1 st position house
win2	SMALLINT	2 nd position house
win3	SMALLINT	3 rd position house
win4	SMALLINT	4 th position house
description	TEXT	Event Description

House		
Field Name	Data Type	Properties
id	SMALLINT	Primary Key
name	VARCHAR(20)	House Name
points	TINYINT	Total House Points
color	VARCHAR(7)	House Colour

Individual		
Field Name	Data Type	Properties
id	SMALLINT	Primary Key
name	VARCHAR(45)	Person Name
designation	VARCHAR(45)	Person Designation
house	VARCHAR(20)	Person House
is_student	BIT	If person is student (1) or faculty (0)
grade	TINYINT	If Student, grade
section	VARCHAR	If Student, section
program	BIT(2)	If faculty, program – PYP (1), MYP (2), DYP (3)
permission	BIT(2)	Access Level Permissions – View only (0), Edit only (1), Add/Edit (2), Admin (3)
pass_hash	CHAR(64)	SHA256 Hash of password
points	SMALLINT	Student Points

Participants		
Field Name	Data Type	Properties
id	INT	Primary Key
event	SMALLINT	Foreign Key (Event ID)
participant	SMALLINT	Foreign Key (Individual ID)

UML Diagrams

Test Plan

Criteria	Aim of Test	Example input	Expected Output
6	Account based access via login screen. Verifying administrator access	Admin Login: Username- admin Password- adminpassword	All buttons and fields editable
6	Account based access via login screen. Verifying view only user access.	User without editing access.	All data modifying buttons and fields disabled.
1	Display current house rankings	—	Name, points and colour of houses displayed in fig. 4.
2	Display upcoming events	—	Name, involvement and time displayed in fig. 5.
2	Display members of each house	—	Name, grade and points displayed in fig. 7.
4	Adding individual record containing name, designation, house, access level and password, and teacher's program.	Name: Srividya Designation: Events Coordinator House: Earth Access level: Add/Edit Password: (>= 10 char) Program: DYP	Can login using details entered with add/edit access
4	Adding individual record containing name, designation, house, access level and password, and student's grade and section.	Name: Prithvi Designation: Sports Captain House: Earth Access level: View Only Grade: 12 Section C	Added to Earth house members list.
3	Adding event record containing name, venue, date, time, grades involved, participants, points to be awarded, winners.	Name: 4x100m Relay U-19 Venue: Field Date: 4 Feb 2017 Time: 11:00 Grades: 9 to 12 Participants: 4 from each house Points: 10, 7, 3, 0	Event is added to list. Participants are assigned to the event.

1, 3	Editing event to add winners.	Event name: 4x100m Relay U-19 Winners: Earth, Fire, Air, Water	House points get added to total. Each participant gets points as per their house.
5	Generating report for testing period.	Month during which athletics events occur	Get report with events (winners, points), houses (points gained), top achieving people.
